# About Us

**Transit Fleets** is the professional brand of Rohit Tours and Travels, offering corporate and employee transportation solutions that are safe, reliable, and efficient.

Our journey in the Employee transportation industry began in 2010 with the establishment of **Gurukrupa Tours and Travels**. From day one, our focus has been on delivering safe, reliable, and comfortable travel solutions for corporate employees across Pune.

In 2015, as our operations grew and client expectations increased, we started **Rohit Tours and Travels** building upon our prior experience to strengthen our focus on corporate and staff mobility services. This new venture enabled us to serve leading organizations with well-managed fleet operations, punctual service, and professional drivers.

With over a decade of expertise in employee transportation, we have built a reputation for efficiency, compliance, and consistent service quality. Our team ensures smooth daily commutes through dedicated route planning, GPS-enabled vehicles, and 24/7 support.

**Vision:** To be the most trusted and preferred corporate mobility partner in India.

**Mission:** To provide reliable, safe, and time-efficient transportation solutions that enhance business productivity.

**Core Values:** Safety | Reliability | Professionalism | Customer-First | Sustainability

chauffeurs**

# Clients & Partnerships

At Transit Fleets, we operate through a robust network of corporate vendor partnerships and strategic collaborations, enabling us to deliver reliable, seamless, and well-coordinated transportation services. This partnership-driven model empowers us to serve leading corporates across diverse sectors—IT, manufacturing, consulting, and large-scale events—while consistently upholding the highest standards of safety, punctuality, professionalism, and comfort.

As a trusted mobility partner to established transport providers, we have built strong operational expertise and an impeccable track record in managing employee transportation, executive mobility, and event-based transportation logistics. Our ability to handle high-volume movements with precision ensures smooth operations even during peak hours or complex requirements.

Looking ahead, our focus is to further strengthen our partner network while progressively expanding into direct corporate associations. This will allow us to create enhanced value, deliver greater efficiency, and build long-term, mutually beneficial relationships with our clients.

# Clients
